

PORTABLE PETROL BACK-PACK

The Backpack from ENAR consists of a portable vibrator, powered by a petrol motor which is mounted securely onto a Metal frame. The connection between transmissions and pokers are very simple and easy to attach.

Freedom of Movement Assured

The backpack allows the user to move freely without any restriction from electric cables. This can be done in comfort thanks to the ergonomic and comfortable support of the Backpack. This product has been designed for comfort and for the use on horizontal works such as pavements and floors.

+ No plugs Safety.

The Backpack is powered by means of a petrol motor reducing the risk of any electrical injuries. For this reason, on a busy jobsite, no harm can be done by loose, exposed or trapped cables.

+ Light Compact and Easy to Use.

Thanks to its lightweight motor and frame, the Backpack is very ergonomic and very easy to manage.

+ Maneuverability For the user.

In many cases, an electrical source is not available on the jobsite, or in others it can be difficult to navigate long distances from the power source. With this in mind, the Backpack allows the user to move anywhere independently across the jobsite without restriction.

TECHNICAL DATA

MODEL	WEIGHT (Kg)	POWER (CV)	MOTOR	FUEL	ENGINE CAPACITY CC	SPEED (r.p.m.)
BACKPACK	7	1.6	HONDA GX 35 4T	GASOLINE unleaded Petrol	35.8	10,000

- › Centrifugal Clutch.
- › Throttle integrated in the handle.

AX HEADS

MODEL	DIAMETER (mm)	LENGTH (mm)	WEIGHT (Kg)	SPEED (r.p.m.)	PERFORMANCE m³/h
AX 45	45	325	3	9,500	25

- › Oversized eccentric.
- › 4 oil-lubricated bearings and with a double gasket.
- › Available-for-use alternative poker sizes (but performance will be significantly reduced).

FLEXIBLE TRANSMISSIONS

MODEL	LENGTH (m)	WEIGHT (Kg)
TDX-TDXE 2	2	4
TDX-TDXE 3	3	5

- › High quality, reinforced hose.
- › The exterior of the hose has been vulcanized for added protection.
