

MAGNESIUM SURFACING KIT WITH ATTACHABLE HANDLES

World Leader in
concrete vibrators

Magnesium surfacing kit with attachable handles

Ideal for floating garage slabs, interior and exterior screeds and other smooth surfaces finished by hand or tool

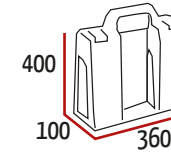

This round-tip magnesium trowel allows the user to smooth concrete before finishes

Highly appreciated by retailers, foremen, masons and concrete operators

KIT INCLUDES

- › 1 magnesium profile
- › 1 rotating assembly
- › 4 aluminium handles diameter 45mm 180cm
- › 1 robust transport case 360 x 400 x 100 mm

The kit is available with different float measurements. 90cm, 120cm, y 180cm

Ref.	MEASUREMENT
260264	90 cm
260265	120 cm
260266	180 cm

ADVANTAGES

- › Effective: the magnesium profile does not stick to concrete and allows the cement to rise well
- › Robust: the profile is made of magnesium to ensure a long service life
- › Practical: the trowel has 2 rounded ends which allow it to smooth the Surface without leaving marks
- › Easy to use: the ball joint allows the user to adjust the angle of the trowel by simply turning the handle while working
- › Practical: Available in lengths up to 6 metres without the need to mount on concrete

- + EFFECTIVE
- + ROBUST
- + PRACTICAL
- + EASY TO USE
- + EFFICIENT
